SLIDING DOOR

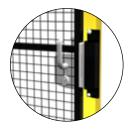

BOTTOM TRACK SINGLE OPENING

The bottom track single opening sliding door, featuring a zinc stainless steel rail with omega profile and fixed to the floor with special plugs, with ogives which get the door to slide, can be built using any of Accessafe framed panels. The door can be ordered as Door in a Box to be assembled on-site. Accessories and posts for assembly are supplied whereas the door panels need to be purchases separately in T30 version. All doors are provided with floor fixing plugs and captive bolts as per UNI
